Female newcomer rep	.....	.....

## Tradition 9:

CA, as such, ought never be organized, but we may create service boards or committees directly responsible to those they serve.

Am I willing to give up control of my CA group and those around me?

Do I exercise patience and humility when performing service work in CA?

When performing service work, do I view the people I serve as individual members of CA?

Am I aware of the importance of the spirit of rotation? Am I able to end my term of service and exit gracefully?
